WHY CHOOSE TRANS ?

We are the first Malaysia Certification body company approved to conduct ISCC Audit.

Our people have experience in ISCC Audit since 2012.

Our Responsible office is based in Malaysia with fast response results and support.

ISCC -EU BIOFUEL AND BIO-LIQUID CERTIFICATION

Certified with us today!

WHAT IS ISCC EU?

ISCC EU is the first and leading voluntary scheme based on the European Energy Directive II (RED II) covering the environmental and social aspects of biomass production. In the supply chain, traceability is key to assuring the diligence of the system

WHO NEED ISCC EU CERTIFICATION?

- Primary producers, certification not mandatory (farm, plantations, points of origin of waste and residues).
- First gathering points/collecting points.(Collection point waste and residue)
- Conversion units (output intermediate products or final fuel).
- Traders of raw/intermediate materials or final fuel

BENEFIT OF ISCC EU

- Responsibility towards sustainability
- Greenhouse gas (GHG) Emission Reduction
- Promote traceability
- Responsibly produced products
- Increase market potential
