PROGRAM OVERVIEW

This training aims to provide participants with a comprehensive understanding of the requirements of ISO 45001:2018 or other relevant OHS standards. Participants will gain the knowledge and skills needed to interpret, apply, and maintain an effective Occupational Health and Safety Management System (OHSMS) that meets international standards and legal requirements.

OBJECTIVES

- To understand the purpose and benefits of implementing an OHSMS
- To interpret and apply the requirements of ISO 45001:2018.
- To identify and assess workplace hazards and risks systematically.
- To ensure compliance with relevant legal and regulatory requirements.
- To establish effective communication and worker participation processes.

COURSE CONTENTS

- Introduction to OHSMS and ISO 45001:2018
- Context of the Organization
- Leadership and Worker Participation
- Planning: Risk Assessment and Hazard Identification
- Support: Competency, Awareness, and Communication
- Operational Control and Emergency Preparedness
- Performance Evaluation: Monitoring and Measurement
