PART 2: SUMMARY OF THE REPORT AND SCOPE OF THE AUDIT

2.1 MSPO SCCS Summary Report

Summary report of the audit including a brief description of the scope of certification and supply chain model(s) used

The mill processes Fresh Fruit Bunches (FFB) into Crude Palm Oil (CPO) and Palm Kernel (PK) with a processing capacity of 54 MT per hour. According to the mill layout plan, it includes four CPO storage tanks with a capacity of 1,800 MT each (one in use and three reserved) and an additional 500 MT tank. For PK storage, there are two units: a bunker with a 150 MT capacity and a store with a 1,000 MT capacity. No external storage facilities are involved. Management maintains a well-organized list of FFB suppliers and buyers of both CPO and PK. During the audit, it was confirmed that the mill does not use the MSPO logo for any purpose.

Deliveries of CPO to buyers are handled by FGV Transport Sdn Bhd. Verified by management, the MSPO logo is not used on or off-product. The complaint records are well-maintained, and no complaints related to product quality were reported in the previous year. The mill follows a policy that requires all MSPO SCCS-related documents to be kept for a minimum of three years, verified through last year's procedures, management documents, and supplier records. The traceability procedure and the MSPO Trace system are available and well implemented. Incoming FFB is accompanied by a delivery note and grading chit before entry to the mill, and the weighbridge ticket contains all the required details.

Through the MSPO Trace system, it was verified that the mill declared both certified and non-certified BTS suppliers. However, the mill have declared all FFB as non-certified under MSPO at the time of purchase.

The Mass Balance records are maintained using the Integrated Palm Mills System (IPMS), covering transactions from January 2024 to the audit date. Daily transactions and production of CPO and PK are recorded in the Mill Daily Figure. The mass balance system follows a continuous accounting approach. It was verified that no certified MSPO product delivery transactions were conducted during the previous audit year.

In this recertification audit, no non-conformities were raised. The MSPO SCCS system is functioning effectively, and monthly declarations are submitted via MSPO Trace. As there were no significant issues identified during the audit, the Lead Auditor is satisfied and recommends the recertification of the MSPO SCCS certification.

PART 3: MSPO CERTIFIED PRODUCTS / MASS BALANCE SAMPLE

3.1 MSPO SCCS Certified Volumes

Confirmation of the company's summary of annual certified volume of MSPO certified Palm Oil Products or Palm Derivatives over a specified period (not applicable for the first certification)

PART 4: BACKGROUND TO THE REPORT

4.1 MSPO Supply Chain Standard

MSPO Supply Chain Certification Standard, (MSPO SCCS-01) 2018

4.2 Certification Body

TRANS CERTIFICATION & INSPECTION SDN. BHD.

4.3 The Lead Auditor		
Name	Qualifications	
MOHD RIZAL BIN MD KASSIM	Postgraduate qualification in Forestry with 5 years of working experience in manufacturing and forestry. Involved in RSPO auditing since July 2012. Fully trained in similar agriculture certification programs such as RSPO SCCS, ISCC, and INS. Member of GGC audit team. Involved in audits conducted in Malaysia, Indonesia, and Ghana. Completed ISO 9001:2008 lead auditor course in January 2013. Qualified as Lead Auditor/Auditor in several certification programs such as RSPO, ISCC, MSPO and etc. Able to speak and understand Bahasa Malaysia and English.	

4.4 The Certification Decision Management Team		
Name	Qualifications	
ATIKA BINTI BAKAR	Graduate qualification in Bachelor of Forestry Science	
	Majoring in Forest Plantation and Agroforestry at University	
	Malaysia Sabah (UMS). Attended TRANS internal trainings	
	Lead Auditor ISO 9001 Course, ISO/IEC 17065, ISO/IEC	
	17021, MS2530:2013, and OCB OPMC 1-4. Attended Lead	
	Auditor MS2530:2022 Course (MAA Training & Consultancy).	
	Successfully passed International Organics Standard	
	USDA/NOP, EU and JAS Awareness and Implementation	
	Training (Global Sustainable Solution (Thailand) Co., LTD.).	
	Experience in Forest Management Unit and MSPO since	
	2019. Able to communicate in Bahasa Malaysia and English.	

4.5 Summary of previous certification assessments and conclusion, with recommendations or non-conformances

(Not applicable for main assessment reports)

The mill processes Fresh Fruit Bunch into Crude Palm Oil (CPO) and Palm Kernel (PK) with a processing capacity of 54 metric tons per hour. Three storage facilities for Crude Palm Oil (CPO) have capacities of 1800 metric tons each, and one has a capacity of 500 metric tons. Additionally, there is one storage facility for Palm Kernel (PK) with a capacity of 700 metric tons. There is no involvement of external storage in the process.

The list of suppliers for Fresh Fruit Bunch (FFB) and buyers of CPO and PK is well-maintained by the management. The mill is not using the MSPO logo for any purposes. An SOP for MSPO Supply Chain Certification System (SCCS) procedure was developed by the management effective January 7, 2021. Mr. Dedisaputra Herman and SCCS committee are responsible for monitoring MSPO SCCS requirements.

The mill has declared certified and non-certified FFB suppliers and potential buyers of CPO and PK through the MSPO Trace system. However, there have been no transactions of certified sustainable products in the previous audit year. Mass balance records are maintained. Daily transactions and production of CPO and PK are recorded. Complaint records are well-maintained, with no complaints related to product quality reported in the previous year.

All documents related to MSPO SCCS are kept for a minimum of 3 years, and verification is done through last year's procedure, management documents, and supplier documents. Traceability procedures are implemented, with incoming FFB provided with a delivery note and grading chit before entering the mill. Weighbridge tickets provide detailed information. No non-conformities were raised during the surveillance audit, indicating that the MSPO SCCS system is in place. Monthly declarations are submitted every month in MSPO Trace.

PART 5: CLOSING MEETING

The purpose of the closing meeting is to allow the audit team to present their findings to the client, to agree dates for the completion of any corrective action required, and to establish any subsequent follow up action. The meeting is chaired by the audit team leader and wherever possible involve the same people who were present at the opening meeting.

Date of closing meeting: 30.10.2024

5.1 Actions that a need to be completed prior before certification can proceed

- a) If any non-compliance was noted, then a certification decision is not possible until the client has taken steps to close out the non-compliances noted in the certification checklist.
- b) If full compliance was noted during the audit, the next step is for the checklist and audit report and any associated documentation, to be sent to the TRANS MSPO SCCS Certifier, by the lead auditor. The certifier will review the documents and may refer back to either the lead auditor or to the client for further information or clarification.
- c) Once the certifier is satisfied, a positive certification will be made, and a certificate is awarded and sent to the client. The MSPO SCCS Certificate is also publish within 14 days of the issuing of the certificate.

5.2 Confidentiality

TRANS auditors will not discuss or reveal any of the confidential information seen during the audit to any third party. Any public summary of the main assessment will be approved by the client prior to publication. The Audit Report and Awarded Certificate is a remains Confidential between Client and TRANS, and the ownership is belonging to TRANS.

continued compliance with the MSPO SCCS. Outstanding NC's need to be closed within 3 months

Surveillance audit: Not all facilities included in the scope of this audit demonstrated

compliance with the MSPO SCCS. The certified status is maintained.

from the audit date.

PART 7: FORMAL SIGN OFF OF AUDIT FINDINGS

7.1 Signing by the Client

I the undersigned, being the most senior relevant management representative of the operation seeking or holding certification, agree with the contents and audit findings as presented in document (MSPO SCCS Report and Checklist).

I also confirm:

- Acceptance of liability in execution of the instructions given in the document and at the closing meeting.
- That this company was made aware that the findings of the audit team are tentative; pending review and decision making by the duly designated representatives of Trans Certification & Inspection's Certifications.
- That this company was informed that until they receive written confirmation of their MSPO Supply Chain certification registration and its expiry date that they are not certified and cannot make any claims concerning certification.
- That the formal record of the closing meeting is accurate and that all agenda items were covered by the lead auditor.

• I understand the implications of non-compliance as laid out above.
