PART 2: SUMMARY OF THE REPORT AND SCOPE OF THE AUDIT

2.1 MSPO SCCS Summary Report

Summary report of the audit including a brief description of the scope of certification and supply chain model(s) used

The mill processes Fresh Fruit Bunches (FFB) into Certified Sustainable Crude Palm Oil (CPO) and Palm Kernel (PK) with a capacity of 60 metric tons per hour, exclusively for local export. It has four storage tanks for CPO with a total capacity of 2,000 metric tons and one storage facility for PK with a capacity of 500 metric tons. No external storage is used. The management maintains an updated list of FFB suppliers and buyers for CPO and PK, and the mill does not use the MSPO logo.

An MSPO Supply Chain Certification Standard (SCCS) procedure has been in place since 07th January 2021, for FGVPI KKS Kembara Sakti, with Mr. Saburani bin Abd Hasirin appointed to oversee compliance. The mill has declared its certified and non-certified FFB suppliers and potential buyers in the MSPO Trace system. Certified FFB is sourced from external suppliers like FGVPM Sahabat 41, 56, 30, 35 and etc., while non-certified FFB comes from other suppliers. No certified product transactions were recorded due to no demand from buyer of CPO and PK.

FGVPI KKS Kembara Sakti employs a continuous accounting system for managing its mass balance reporting. This process is fully integrated and maintained within the Integrated Palm Mills System (IPMS), ensuring accurate and up-to-date records for all incoming transactions and production outputs of Crude Palm Oil (CPO) and Palm Kernel (PK). All MSPO SCCS-related documents are retained for at least three years, as verified through previous records and procedures. Traceability is ensured as all incoming FFB is accompanied by delivery notes and grading chits, and weighbridge tickets are issued with required details.

The recent recertification audit found the MSPO SCCS system effectively implemented, with no non-conformities. Monthly declarations submitted to MSPO Trace align with internal reports on FFB received and CPO/PK production.
