PART 2: SUMMARY OF THE REPORT AND SCOPE OF THE AUDIT

2.1 MSPO SCCS Summary Report

Summary report of the audit including a brief description of the scope of certification and supply chain model(s) used

Processing of Fresh Fruit Bunches (FFB) into Sustainable Crude Palm Oil (CPO) and Palm Kernel (PK) is carried out with a mill processing capacity of 54 mt/hour. The production of CPO and PK is solely for local sales. During the site inspection, four storage units for CPO (capacity: 7200 mt) and one storage unit for PK (capacity: 1000 mt) were observed. No external storage is involved. The list of FFB suppliers and buyers of CPO and PK is well-maintained by management. Verified during the audit, the mill is not using the MSPO logo for any purposes.

The management has developed an SOP for MSPO SCCS (*Supply Chain Certification System*) for FGVPI KKS Embara Budi, effective since 7th January 2021. Mr. Abdul San Bin Titeh is one of the appointed committee members responsible for monitoring MSPO SCCS requirements.

Verified through the MSPO Trace system, the mill has declared its certified and non-certified FFB suppliers, along with buyers of CPO and PK. No certified sustainable CPO/PK transactions were recorded in the previous audit year. Sustainable FFB is sourced from suppliers such as FGVPM Ladang Sahabat 56, 11, 12, and 20.

The mass balance record is maintained by the weighbridge clerk and through the IPM(Integrated Palm Mill) System. Incoming transactions and the production of CPO and PK are recorded daily in the IPM System, using a continuous mass balance system.

The record-keeping requirement specifies that all MSPO SCCS-related documents must be retained for a minimum of three years. Verification was conducted through past procedures, management documents, and supplier records. The mill has implemented a traceability procedure whereby incoming FFB is accompanied by a delivery note and grading chit before entry. The weighbridge ticket contains all required detailed information.

No non-conformities were raised during the recertification audit. The MSPO SCCS system is in place, though no transactions of certified have occurred. Monthly declarations are submitted in MSPO Trace every month.
