**PART 2: SUMMARY OF THE REPORT AND SCOPE OF THE AUDIT**

**2.1 MSPO SCCS Summary Report**

Summary report of the audit including a brief description of the scope of certification and supply chain model(s) used

Processing of Fresh Fruit Bunch into Sustainable CPO and PK with mill's processing capacity of 40 mt per hour. The production of CPO and PK is only for local export. Through site inspection, 3 storages for CPO were sighted and 1 silo and 1 bunker for PK. Storage capacity for CPO is 4,100 mt and PK is 148 mt. There was no external storage involved. The list of FFB supplier and buyer of CPO and PK was well maintained by the management. Verified during the audit with management, the mill is not using MSPO logo for any purposes.

The management has developed SOP of MSPO SCCS procedure for FGVPI KS Pasoh, effective on 07<sup>th</sup> January 2021. The management has appointed Mr. Mohd Nazrul bin Yahya as responsible person to monitor MSPO SCCS requirement.

Verified from the MSPO Trace system, the mill has declared their certified and non-certified FFB's supplier together with their potential buyers of CPO and PK. There is no transaction of delivery certified sustainable product yet for previous audit year. There is no sustainable material received by the management.

The Mass Balance record is maintained by the weighbridge clerk and IPMS System (Integrated Palm Mill System). The incoming transaction and production of CPO and PK is recorded daily in the IPMS System. The mass balance is using Continuous Accounting System.

The record keeping period stated all the document related to MSPO SCCS should be kept for minimum 3 years. The verification is done through the last year procedure, management documents and supplier documents. The procedure of traceability is implemented by the mill. The incoming FFB provided together with delivery note and grading chit before allowed to enter to mill. The weighbridge ticket is provided with details information required has been stated.

From the surveillance audit, there is no non-conformity raised. The system of MSPO SCCS is in place. There is no transaction of certified product yet. The monthly declaration is submitted every month in MSPO Trace.

#### **4.5 Summary of previous certification assessments and conclusion, with recommendations or non-conformances**

(Not applicable for main assessment reports)

FGV Palm Industries (FGVPI) is one of the subsidiaries companies under FGV Holdings Berhad. FGVHB Group Sustainability Policy established as FGVs commitment for Sustainable Development Goals (SDGs), RSPO, MSPO, and other sustainable scheme standards. This GSPs approved on 17/11/2020. Apart from this policy, they have Pernyataan Polisi Skim Persijilan Kelestarian, where there are statements saying that FGVs subscribed to few sustainability certification schemes and will adhere to principles requirements. This policy is being communicated to their workers, contractors and suppliers.

Previously, WB and MPR software systems were used for segregation of certified and non-certified product records. All suppliers (certified or non-certified) are performed in the WB system. However, these systems have been replaced recently in August with a system called Integrated Palm Mill System (IPMS). This system is not allowing short sales based on the use of a 'continuous accounting system' by the mill. Furthermore, the system has been integrated for calculation of daily Mass Balance value based on FFB input, mill OER/KER exchange rate and CPO/PK delivery volume. The mill does not use any outsourced activities in the processing of MSPO certified products.

For the implementation of MSPO, site established MSPO Supply Chain Certification Procedure, FGV/GSD-SCCD/SOP/006, version 1.0, dated 7/1/2021 that define system for administration and control of sustainability management system throughout all operation activities. Mill Manager, Azlie Shaftrie Bin Shaari is the person who has overall responsibility and authority of MSPO SCC implementation. However, he will be assisted by MSPO SCC Committee Member as sighted in the appointment letter dated 14/07/2023.

During this assessment, one major NC and one observation raised, and it is recommended for the site to sustain the MSPO certificate, once the major NC has been successfully settled.
